A Dog's Breakfast

Part one

Randoms !!!

Aidan W

6th grade Rm31

Hello and welcome to Randoms!!! Some ~~may~~ say "this is boring" or "I already knew that." But I don't care.

Randoms is a part of this news paper where you will learn awesome... perhaps new facts about random stuff

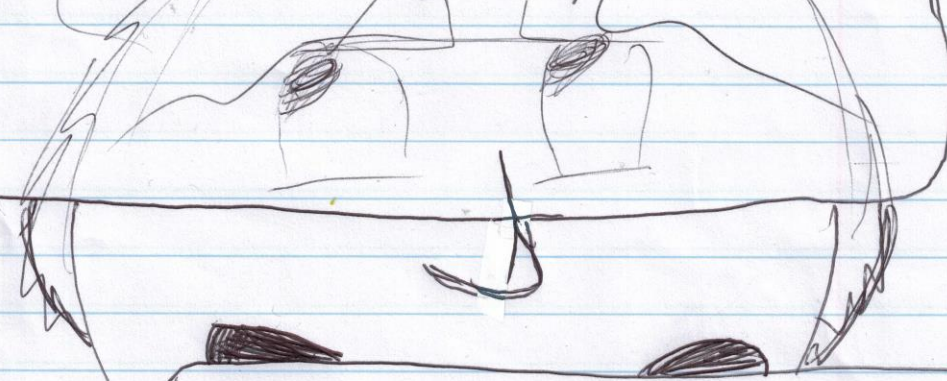

Hopefully you enjoy this if not to bad. Today's facts will be about wild cats.

- ① A clouded leopard can hang upside down on a tree branch.
 - ② The Siberian tiger is the largest cats in the world.
 - ③ You can wear a face mask on the back of your head to prevent a tiger attack.
- to be continued...

tough luck

Randoms Part two

- ④ A hungry tiger can eat 500 hot dogs in one night
- ⑤ Cheetahs get more and more spots as they get older
- ⑥ Cheetahs don't rawr like many other cats, they chirp

And because my (dumb) Boss makes 'Randoms' finish with a drawing here is a picture I drew of a tiger. I hope ~~to~~ keep reading us!
