Oral Communications	
<p>Old business STMath from 17-18</p> <p>Sharing of Additional Math Apps used for Intervention</p>	<p>Data from STMath presented by Linda. Iqbal felt that the games were just for fun and not much learning was taking place. Iexcel is a program that was recommended by Iqbal. The question was raised as to how often teachers are referring to the data generated from STMath. Emily, Binny, and Kiely were in agreement that any app that is adopted needs to be engaging and have student “buy in.”</p> <p>Additional PD for teacher on STMath or any other adopted apps was requested.</p> <p>Linda would like to have ILT vote to keep/not keep STMath.</p> <p>Scott brought up that the apps need to be meaningful. It takes about 5-10 minutes for logging in and logging out from computer carts. So a 15 minute session is really 25 minutes of classroom time.</p> <p>The question was raised about comparing what is being used at other schools.</p> <p>MobyMax- Scott shared that his 7th grade daughter is using Mobymax. He likes that it is at her level and she progresses on what skills she is lacking. However, it is not very engaging or “fun.” Perhaps there will not be as much use at home. Furthermore, it is being used as a grade.</p> <p>Linda shared that it should be used as a learning tool, not a formal grade. Also, PD for teachers would be critical. Linda will bring this to ILT to</p>

	vote to purchase MobyMax. If yes, she will bring this item back to SSC to shift money for purchase.
